

In the specification:

Please replace paragraph [0001] on page 1 of the patent application with the following paragraph:

[0001] This application is related to co-pending and commonly assigned U.S. Patent Application Serial Number 10/306,279 filed November 27, 2002, entitled "SYSTEM AND METHOD FOR MEASURING THE CAPACITY OF A STREAMING MEDIA SERVER," the disclosure of which is hereby incorporated herein by reference, and which issued on September 9, 2008, as US Pat. No. 7,424,528.

Please replace paragraph [0012] on pages 3-4 of the patent application with the following paragraph:

[0012] In certain embodiments, computer-executable software code stored to a computer-readable medium, such as a recordable data storage medium, is provided. The computer-executable software code comprises code for identifying, for a time interval of interest, at least one request received at a server for accessing a streaming file, and code for determining, for each of the at least one request, a segment of the streaming file accessed during the time interval of interest. The computer-executable software code further comprises code for determining, if multiple requests are identified for the streaming file during the time interval of interest, at least one unique segment of the streaming file that was most recently accessed within the time interval of interest.
